

Don't fight fires alone.

When communities are threatened by wildfires, you can be confident Holiday Retirement is ready and committed to the safety and comfort of our residents and associates.

For almost 50 years, Holiday has been in the business of helping older adults live better, age more successfully and stay independent for as long as possible. That commitment continues during any weather or natural disaster event like hurricanes, floods and wildfires, with an emergency response plan most other companies can't afford or coordinate:

- An emergency response team of professionals with over 200 years of collective experience in natural disasters planning execution.
- Community leaders and staff onsite 24/7 before and during events.
- Close coordination with local government authorities to direct activities 24/7 before and during major events.
- Comprehensive communication plan committed to keeping family members well informed.
- A network of Holiday communities that can serve as temporary housing during times of mandatory evacuation.
- A self-contained evacuation model with new motor coaches on call to transport residents and associates from evacuation zones to other nearby Holiday communities.
- Priority delivery status with our food distributor before and after events, achieving the same delivery speed that a hospital might receive.

Call today to learn how Holiday Retirement is the absolutely best choice when picking a community committed to safety and comfort. Our teams shine brightest during the most challenging events.
